Building effective project teams

This article examines a proposed process for integrating project planning and project team building, a process informed by the authors' survey of project management practices. Building Effective Project Teams focuses on the basic foundation for building effective teams. Building a good team is the single most important thing a Project Manager can do to achieve a successful project. With the right attitude, a team will overcome challenges and work towards the common goal.

Creating an effective and successful project team – one that works. This helps to build trust, which is needed if a team is going to be effective.
